

Granite Fabricator / CNC Operator

Job description

Wave Granite & Marble is one of the Texas' premier fabricators and providers of premium stone surfaces, for a wide range of surfaces, including kitchen countertops, bathroom vanities, fireplace surrounds, outdoor kitchens, and more. We are proud to be certified fabricators and installers for industry-leading engineered stone manufacturers, such as Cambria(Premier Partner), Silestone, MSI, Caesarstone, and other renowned brands.

At Wave Granite, our mission is simple: to provide customer satisfaction through high-quality craftsmanship with meticulous attention to detail and innovative design solutions. Our commitment is to provide exceptional service, attentive guidance, and a seamless experience from consultation to installation.

Wave Granite is seeking a Stone Countertop Fabricator / Machine operator with experience to join our team.

Qualifications

- Minimum of three years of stone fabrication experience required in the stone industry.
- CNC machinery operation experience required for CNC operators.
- Safe operation of the Bridge Saw, and electric FLEX Polishing Tools.
- Comfortable handling of a variety of materials including- Granite, Marble, Soapstone, Quartzite and Engineered Quartz.
- Must be able to accurately read and interpret installation (CAD) drawings.
- Must be able to accurately read a measuring tape.
- Excellent organizational skills and be task driven.
- Excellent attention to detail is a must.

Responsibilities

- Willingness to take additional tasks as needed to complete a dynamic workload.
- Readiness to accept responsibility for quality and completeness of work.
- Operate stone cutting and polishing machines in workshop.
- Fabricate edges, sides, corner radius, angles and sink cutouts (if needed) by hand.
- Accurately identify granite and marble materials.
- Layout and minimize granite and marble slab waste.
- QC checks on finished work pieces by inspecting, comparing to templates and measuring their dimensions.
- Assist in minor repair and maintenance, and additional support as needed.
